The Defense Blundered.

HONESTLY consider that conviction was had, not because the State proved its case, but because the attitude of defense completely bewildered the jury. It was paramount to defense that Carvaino, whose presence daily led the jury to believe he would testify, should have testified, his pre-eminence in that line more than off-setting the combined forces of his adversaries. His failure to testify completely confounded and was inexplicable to jury, an overwhelming detriment to Molineux. Also absence of club and business associates to confront corresponding State's testimony. To allay suspicion and doubt, Molineux a witness, an assumption of a manly and innocent role.

I EARLY a dozen experts testified the address on the fatal wrapper. If I had been his lawyer, I would have ored to impeach or discredit. I would ored to impeach or discredit. I would not have a monopoly of the tri-crescent blue paper. Not a Sound and Whole Jary. OULD not Weeks have prevented the passing of the death sentence by syndicate was tired of it all. To use the words of this person, Miller said:
"Since I have been mixed up in this thing I have been made a football between the police, the District-Attorney's office and lawyers. I am sick of it all."

experts. 2.1 would have placed Moliuear on the stand. A strong assertion
of innocence by the accused would have
generated a sense of doubt in the minds
of the jury. Had Molineux said before

Goff the trial would have resulted in

Before they went to prison this morning they received a call at their boarding-house from Eev. Charles &l. Miles, pastor of \$1. Paul's Episcopai Church in Sing Bing village. Mr. Miles invited the Molineux family to attend his church during their stay in Sing Sing.
